

PHILOSOPHY

Philosophy is the study of the meaning of truth, knowledge, reality and existence.

PHILOSOPHY AND EDUCATION

Philosophy of Education applies knowledge and theories to schooling practice

A Philosophy of Education Addresses:

- The purpose of Education- the needs of the individual, society, or cultural group

Theories, which guide philosophical principles, are created to determine:

- What is the content of the school curriculum?
- What is the role of the teacher?
- What is the place of the student?

The philosophy of educators is reflected in:

- School Mission Statements
- Educational Goals and Objectives
- Teaching Styles
- Classroom Organization
- Discipline Policies
